**Subject:** M6H1 - Harvey Response: 9-2-17 Update to Site Assessment Status  
**Date:** Saturday, September 2, 2017 10:25:25 AM

---

Cheryl,

To offer you an update to the Beaumont Office operational status for conducting site assessments of wastewater treatment plants.

Mark Palmie of TCEQ, our wastewater contact, told us that the Beaumont Regional Office did not have access to Response Manager at this time for the wastewater group.

We have been given the Beaumont call list once again (pulled it out of the trash can and gave it back to me again.....no food debris on it !).

As in all of our responses over the years.....things are always in a state of flux.....and we adapt on the fly.

Thanks

Juan
